

www.citrix.com

Home page of Citrix

Click "Downloads"
Populate the "find Downloads" as seen below
Click Find.

Click on “Detect my device and install Receiver”

The screenshot shows the Citrix website's Downloads section. At the top, the Citrix logo is on the left, and navigation links for Solutions, Products, Downloads (highlighted in green), Buy, and Support are on the right. Below the navigation, there are two tabs: Downloads and Trial Software. A search box titled 'Find Downloads' contains 'Citrix Receiver' and 'Receiver Easy Install' in the dropdown menus, with a 'Find' button below. To the right, the 'Citrix Receiver' header is followed by 'Receiver Easy Install'. A sub-section titled 'Receiver for All Platforms (1)' contains a single result: 'Detect my device and install Receiver' with a 'MULTI' icon and a date of 'Jul 31, 2012'.

Last step
Click “Download Receiver for Windows”

The screenshot shows the Citrix Receiver download page for Windows. It features the Citrix Receiver logo (a black circle with white curved lines) and the text 'Citrix Receiver' in green. Below the logo is the tagline 'Access your apps, data and desktops from any device.' A large blue button with white text reads 'Download Receiver for Windows'. At the bottom left, there is a link that says 'View other devices'.
