

# The Brethen Foundation Advanced Care Wing

Fort Loudoun Medical Center is a member of Covenant Health, a not-for-profit healthcare delivery system serving East Tennessee and the surrounding region. Located in Lenoir City, it is a 50-bed medical center with an array of medical services, including critical care, cancer services, diagnostic imaging, and physical rehabilitation programs.

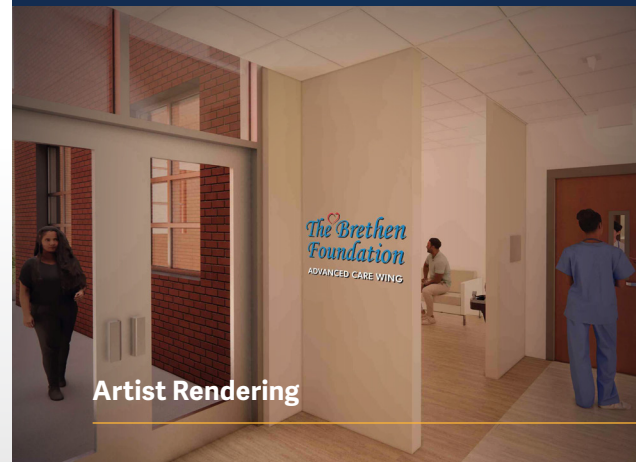

In response to the growing needs of Loudon County and the surrounding area, in 2023 the hospital and Covenant Health began plans to expand the intensive and intermediate care services available to our patients, as well as increase our emergency department capacity. The Brethen Foundation, led by Loudon County residents Colleen and David Brethen, generously partnered with the hospital to bring this expansion to life. A groundbreaking ceremony was held in November 2023 and construction work is underway.

Now other generous individuals and organizations have the opportunity to join the Brethens and support this expansion and increased level of care to meet the healthcare needs of our community.

“Fort Loudoun exists to serve the people of this community and to provide excellent and compassionate care at our facility,” said Connie Martin, president and chief administrative officer of the hospital. “We are on a mission to improve lives through better health. The ways in which we all can further our mission are expanding facilities, technology, and charitably investing in resources that equip us to be here when the community needs us.”

## By the numbers:

- 26 new private patient rooms for intensive and intermediate care
- 2 nurses' stations
- 1 physical therapy room
- 1 family waiting area
- 1 enclosed serenity garden
- 1 entrance courtyard
- 19,000 square feet of additional patient care area
